PLACING: First 3
Second 1
Third 4
Fourth 2

Placing score	_____
Reason score	_____
Total	_____

REASONS: (List only main points)

I place 3 over 1 because:

3 has the largest body capacity in this class. 3 is wider overall with more depth in the hindquarter and loin than 1. 3 is also more ideally and uniformly conditioned than 1 and has a fuller loin. I do grant that 1 is deeper in the forequarter than 3.

I place 1 over 4 because:

1 has a more developed hindquarter than 4. 1 has a longer, deeper loin and has more depth and width over the shoulders than 4. 1 has a more proportionally balanced body with a smoother-appearing flesh covering than 4.

REASONS (list only main points):

I place 4 over 2 because:

While 2 is longer bodied than 4, 4 is more ideally proportioned than 2. 4 is deeper over the shoulder than 2 and has more depth and fullness in its loin. 4 also has a wider, more developed hindquarter compared to 2.

I place 2 last because:

Though 2 is comparable in length with the other animals in this class, its overall lack of width and conditioning, especially in the hindquarter, has placed it in the bottom. 2 also has the least uniform body. I do grant though, that if given time and proper conditioning, 2 could place higher in this class.

These are my reasons for placing this class of Market Rabbits 3-1-4-2.
