Playdough Recipe

Salty Playdough:

- 2 cups flour
- ~ 1 cup warm water
- 1 cup salt
- 2 Tablespoons vegetable oil
- 1 Tablespoon cream of tartar (optional, for improved elasticity)
- Food coloring

Mix all of the ingredients together (start with less water and add more as needed), and stir over low heat. The dough will begin to thicken and clump.

When the dough pulls away from the sides and clumps in the center, remove the pan from heat and allow the dough to cool enough to handle.

Once cool, knead the dough to create a uniform consistency. The dough should be stretchy and smooth.

If kept in a sealed container, playdough should last for months.

Sugary Playdough:

- 2 cups flour
- ~ 1 cup warm water
- 1 cup sugar
- 2 Tablespoons vegetable oil
- 1 Tablespoon cream of tartar (optional, for improved elasticity)
- Food coloring (different colour from salty playdough)

Mix all of the ingredients together (start with less water and add more as needed), and stir over low heat. The dough will begin to thicken and clump.

When the dough pulls away from the sides and clumps in the center, remove the pan from heat and allow the dough to cool enough to handle.

Once cool, knead the dough to create a uniform consistency. The dough should be stretchy and smooth.

If kept in a sealed container, playdough should last for months.
